Description:

Organic Greek teas are produced under strict farming practices free from chemical pesticides and fertilizers.

Our organic teas are certified organic and provide you with healthy nourishment and good taste. Our Slim Tea helps the body release toxins and help burn more calories and help suppress appetite.

Slim tea helps lose weight by maintaining normal metabolism of fats and carbohydrates. Non-GMO Sugar free Gluten free Keto friendly 100% organic Vegan Rich in antioxidants enhances the body's cleansing process. Our Ingredients Green Tea helps improve brain function, fat loss, protecting against cancer, and lowering the risk of heart disease.

It also helps in reducing inflammation. Lotus leaf teas can serve as a "cold" tea that helps dispel pathogenic heat, promote urination, benefit the spleen and stomach, and stop bleeding. Drinking four cups of lotus leaf tea a day can also help relieve constipation, which will help lose weight more efficiently. Cassia Obtusifolia helps in the prevention of eye diseases.

It helps comfort and cure stomach aches.

It serves as laxative, which promotes bowel movement.

It softens the stool and cures constipation.

Moringa seed is beneficial for protecting hair against free radicals to clean and healthy.

Moringa contains protein that protects skin cells from damage.

It also contains hydrating and detoxifying elements, boosting the skin and hair.

Hawthorn Fruit is plentiful in antioxidants and a rich source of polyphenols.

It can reduce some infections, heart problems, premature skin aging, aid in digestion, and may lower blood pressure. Honey is a good source of antioxidants, aids in digestion, helps heal wounds, has antibacterial and antifungal properties, can help heal wounds, and soothes sore throats.

Honeysuckle is used for digestive disorders including pain and swelling. Upper respiratory tract infections including colds, and other viral and bacterial infections.

Rich in phenolic compounds, antimicrobial and antibacterial.

Honeysuckle reduces oxidative stress, one of the most important ways honeysuckle is used to help prevent cancer.

Gynostemma is an adaptogen and antioxidant. It helps the ability to handle stress more efficiently.

It reduces fat, speeds the metabolism, regulates blood sugar.

It supports the healthy activity of the immune system.

It contains many amino acids, vitamins, and minerals that are essential to the human body, including zinc, magnesium, manganese, calcium, iron, potassium, and phosphorus.
