Registered nurses have the highest employment in health care according to The Bureau of Labor Statistics information released in June 2015. Nursing salaries average \$67,790.00 according to Ted: The Economics Daily Report. Increases in opportunities are expected to grow till year 2022. The Los Angeles [job market](#) looks bright with a positive demand for nurses due to an aging and growing population in the Los Angeles county region.

Michelle Katz, MSN, LPN is an exemplary example of why receiving an [advanced](#) education benefited her career. Katz is an expert in her field and is a regular contributor on "Real Money" segments of ABC World News Tonight. She helps make healthcare accessible to those who may not have thought they could afford the care they needed.

Ms. Katz chose [George Mason University](#) because no other school was offering degree programs in health care [management](#). The course "Managing Integrated Delivery Systems" had the most impact on her career. At the time, she states, "George Mason University was the only school offering this type of program in the United States." Michelle had tremendous passion for this line of work. Coming out of surgery and struggling to afford to pay for classes, working 4 jobs and going to school, she still had the perseverance to graduate.

One of Katz's teachers, Patricia Cloonan, had a special impact on her career because she challenged Michelle and believed that through adversity she could overcome her challenges by sticking with the goal of continuing her education. Ms. Katz states, "It was a lesson she taught me earlier on that was extremely valuable in such an intense program. Face your challenges and think beyond them because this was just the beginning." Ms. Katz pioneered the role of the healthcare advocate, wrote one of the first books dedicated to helping people save money in healthcare through her own experiences and created the role of a healthcare consumer expert on national television.

This New Product Gives Hope to Those Suffering From Chronic Snoring

I'll admit it - I (used to) snore. Badly. Badly enough that my wife not only complained, but was also afraid that I had Sleep Apnea. And I was afraid too.
